SHERBROOKE'S SUPERB PEONIES

Have been growing peonies for over twenty years with increasing enthusiasm and now have one of the highest class selections of this superb flower in the western states.

The Peony is the hardest of hardy perennials withstanding temperatures of 60 degrees below zero and has been known to bloom each year for over fifty-five years in the same spot without special care.

They should only be moved in early autumn and planted shallow with only two inches of earth over the crown eyes. Deeper setting and spring planting are mostly responsible for their not blooming. Large clumps should never be planted without first dividing the roots into well balanced divisions of from two to five eyes each, planting in fresh soil in which Peonies have never before been grown.

The figures preceding the name, represent the standard of perfection won in a voting contest conducted by the American Peony Society. Very few votes were from the Puget Sound section and as many varieties do much better here than in the eastern states, some of those with lower ratings are here equal to others with more favorable rating.

They must have a well drained soil with sunshine in order to flourish. give them the best you have, a little clay or humus helps but NEVER USE ANIMAL MANURE in planting peonies, bone meal and ground limestone with plenty of moisture at blooming time will produce the finest peonies in the country.

LIST OF VARIETIES

87 AVALANCHE. A magnificent white prizewinner $1.00
81 ASA GRAY. Very large salmon pink, powdered lilac 1.00
80 AURORA. Milk white, golden stamens showing 1.00
88 ALSACE LORRAINE. Cream white, center brownish yellow 3.00
75 ADOLPH ROSSEAU. Deep purple garnet, satin sheen 1.50

SIZE OF ROOTS: Prices quoted are for standard divisions of from three to five eyes.

SMALLER DIVISIONS: Not less than two eyes, (no one eye cuts sent out) may be had of the more expensive sorts costing $4.00 or over, at half prices quoted. These prices will compare favorably with those of any reliable grower.

COLORS: By cutting pink and yellow varieties in the bud stage and opening them in a cool dark room, the colors are intensified and preserved.

CARRIAGE PAID: Packing and postage free. Consider this when comparing prices.

SELECTIONS: If not familiar with Peonies and desire me to select for you, just tell me what colors are preferred and the price you wish to pay. I'll be glad to select those of exceptional merit.

TRUE TO NAME: Every care is exercised to keep my stock clean and true to label and I will replace any that prove otherwise. While this is a guarantee yet I am not selling guarantees, just honest stock carefully grown and handled.

VISITORS WELCOME at my gardens any time. Select your favorites whilst in bloom.

IRIS GERMANICA
(TALL BEARDED IRIS)

For many years I have made a specialty of growing Irises. What I offer now is a selection of the numerous varieties I have tried out.

The German or IRIS GERMANICA, is a rhizomous Iris blooming before Decoration day. Many are very fragrant and should be planted in August or early autumn for best results.

The Dutch, Spanish and English Irises are bulbous Irises blooming in the order name. Plant in the Autumn four inches deep.

The Siberian and Japanese Irises are roots and should be planted in a damp sour place, using no lime whatever.

Of the Siberian I offer only the light blue known as Perry's Blue at $1.00 per liberal division.

The Japanese Iris is the last to bloom late in June and when this is through blooming "School's out" for the season as far as the Iris family is concerned although the German Iris, Mrs. Allen Gray, usually gives a second crop of flowers late in the autumn.

There are almost as many Iris "Fans" or fanciers as there are Rose enthusiasts. The Iris is fast coming into its own and increasing in popularity as each season bring into bloom the wonderfully beautiful new creations of modern hybridizers.

Some folks call them "Flags", they were once, now they are Irises for an Iris is a flag with a college education.

They do not have to be taken up and replanted every fall but remain for five or more years where planted, increasing in size and profusion of bloom each year until they have exhausted the soil and become overcrowded then they should be divided and reset in fresh loam.

Contrary to the usual belief, the bearded Iris requires a well drained location and will surely rot if given a soggy wet location.

Planting should be done in August or any month thereafter until April first, while the soil is in condition. In planting early we are assured of bloom the following season, planted late the plants may fourish satisfactorily but little bloom can be expected the first season.

Plant in well prepared soil in which a handful of ground limestone has been mixed but with no fresh manure near the roots. The roots straight down with the rhizomes not more than two inches below the surface, they seem to require a sun baking after flowering.

While budding and blooming they require plenty of moisture and shallow cultivation, after which let them dry out.

Packing and postage free on all orders of $1.00 and up
### LIST OF VARIETIES

The figures before each name, indicate their standard of perfection as rated by a voting contest conducted by the National Iris Society recently. Some of the ratings are not satisfactory for this Puget Sound climate as some of those worth a low rating are much better here than in the East where the contest was conducted and would score considerably higher here.

74 **AUREAU.** A lovely clear yellow throughout. Deserves a much higher rating here

94 **AMBASSADEUR.** Standards are a smoky purplish bronze, the falls a rich velvety maroon, with bronze throat and yellow orange beard

89 **ALCAZAR.** Light Bluish violet, falls deep purple with bronze veined throat. A very striking variety

**ALBICANS.** Purest milk white throughout, of large size and heavy substance. The loveliest pure white we know

78 **AMAS.** Also known as Maeranth. A rich blue of giant proportions

84 **ANNA FARR.** White with laced border of Violet blue. Has the fragrance of concord grapes

92 **ASIA.** Soft lavender shading to yellowish brown, very lovely

94 **BALLERINE.** Light violet blue, falls deeper. Large and fragrant

75 **CAPRICE.** Rosy reddish shade, deeper in the falls. Deliciously fragrant

89 **CATERINA.** Very large bluish lavender, quite tall and fragrant

87 **CRUSADER.** The noblest clear blue in the collection. Tall and striking, orange beard

80 **DALILA.** Flesh-white, falls reddish purple, yellow beard

**DOROTHEA.** Mauve, deeper in center, falls soft blue. Opens flat

74 **DR. BERNICE.** Rich coppery bronze, falls velvety crimson

78 **ELDORADO.** Light golden bronze shaded heliotrope, falls bright violet-purple. A gorgeous combination

76 **FLORENTINA ALBA.** White faintly flushed bluish lavender

73 **HER MAJESTY.** Rose pink shading darker, with considerable veining in the falls

**INGEBORG.** White shading to soft yellow. The value in this variety lies in its early blooming qualities

86 **ISOLENE.** Fawn shaded pinkish lilac with coppery yellow and orange beard. Large, very tall and most entrancing

79 **IRIS KING.** Rich amber yellow shading to mahogany and velvety crimson. Superb coloring and a glorious Iris worthy of a much higher rating

80 **JACQUESIANA.** (syn. **Conscience**) Smoky orange crimson, shading to rich maroon. Much admired

78 **JEAN D’ARC.** White with a laced violet border. Very fragrant

81 **JUANITA.** Clear and deep blue, deeper than Pallida Delmatica

85 **LADY FOSTER.** Standards pale blue, falls light bluish violet

96 **LENT A. WILLIAMSON.** The highest scoring variety in cultivation. Standards soft violet, falls velvety royal purple with amber throat and lovely orange beard. An American introduction

82 **LOHENGREN.** Soft shade of Cattleya rose shaded mauve pink. Large upright, fragrant and one of the very best

91 **LORD OF JUNE.** Standards lavender blue, falls violet blue of very pleasing tone. Fine habit, very large bold flowers, a grand Iris

91 **MAGNIFICA.** Standard’s broad lilac rose on white, falls reddish purple, very long. The largest Iris we have seen

82 **MT. PENN.** Lovely bright pink throughout, considerably veined

84 **MONSIEUR.** Rich violet, falls velvety purple with veining

76 **MRS. ALAN GRAY.** Soft lilac pink of pleasing tone. Very often blooms in the autumn, a second crop

87 **OPERA.** Standards reddish lilac. Falls velvety purple violet. A bright spot in the garden

85 **PROSPERO.** Lavender flushed yellow at base. Falls deep reddish purple, shaded lighter at margin. Tall and very large

88 **PALLIDA DELMATICA.** The loveliest shade of lavender throughout. It is large, tall and very sweetly scented. One of the best
83 PROSPER LAUGIER. Standards light bronze red. Falls smoky ruby purple. A combination difficult to describe 35c
72 PRINCESS VICTORIA LOUISE. Sulphur yellow, falls rich plum bordered cream 20c
90 QUEEN CATERINA. Lovely light lavender violet throughout 60c
74 QUEEN OF MAY. One of the loveliest bits of color in our garden. Soft lilac pink veined deeper in the falls. Splendid upright habit 25c
84 QUAKER LADY. Smoky lavender shaded yellow. Falls ageratum blue and old gold. A very attractive lovely iris 35c
75 QUEEN ALEXANDRA. Fawn shot with lilac, falls lilac reticulated bronze at base 25c
84 RHEIN NIXE. Standards are white. Falls violet blue edged white 25c
ROSE UNIQUE. Bright violet rose. Early and good 30c
93 SOUV. DE MADAM GAUDICHAU. Deep rich velvety purple. One of the richest colors in any Iris 1.00
93 SEMINCLE. Soft violet rose, falls rich velvety crimson 85c
81 VIRGINIA MOORE. Soft yellow throughout. Larger than Sherwin Wright and Aurea. Tall growing 75c

DUTCH IRIS

A bulbous Iris larger than the Spanish, blooming earlier. Plant in Autumn.

Prices are for double divisions. If large divisions are wanted I will send size to correspond with amount of remittance received.

**TULIPS**

EXTRAORDINARY MIXTURE. All colors and types. 35c Doz. $2.50 per 100

The foundation of this mixture was obtained from a young Oregon banker making Tulips his hobby. This mixture has since been "sweetened" and now contains some very unusual things in all types, Cottage, May flowering, Darwin, Picotee, Breeder and Bizarre.

Altogether a most unique assortment, much admired.

**DELPHINIUM**

English hybrids from several high class strains, Hoodacres, Wrexham, Pudor and others, some very "classy" stuff in these.

Plants from 15c to $1.00 each according to size and age. Seed 50c per liberal packet.

**GEUM**

A very attractive hardy perennial. The flower looks like a red carnation at a distance, closer up it resembles a semi-double rose.

MRS. BRADSHAW. Brilliant orange crimson. Plants 10c to 25c each according to size and age.

**ROSES**

If interested in roses, send for my price list of the "world's finest varieties."

Sherbrooke's roses are now well and favorably known throughout the Pacific Northwest, where quality counts there are none better.

I do not sell slips or scrubs at bargain (?) prices, these are usually worth less than they cost. My plants are sturdy field-grown specimens of high quality at fair prices.

If you expect prizewinners, get the best they are not expensive.

**THE MODERN GLADIOLUS**

"Sherbrooke's Glorious Glads" have been a leader in my gardens for many years and only the most select varieties originated by the foremost hybridizers are grown.

Price list will be mailed only on request this season. If you have mislaid the one sent last spring, another may be had by dropping a postal. Select your favorites whilst in bloom. Visitors always welcome.

Packing and postage free on all orders of $1.00 and up.
